Website https://granthewlett.carrd.co

I'm a Production VFX Supervisor & Producer with over 20 years in film and high-end TV and more than 60 credits, most recently **PAINTER** for 20th Century Studios/Disney and **CRIME 101** for Amazon MGM Studios.

I cover the full production-side VFX role in one person — supervision, producing, on-set, bidding and budgeting — keeping productions lean and the VFX connected from first concept to final delivery. I get involved early and work closely with directors, DPs and every department: design-led collaboration at the start is where the most elegant, cost-effective solutions come from.

Having built and run my own VFX company for 10 years, with teams of up to 80, I understand vendors from the inside — their pressures, their pipelines and how to get the best from them. I'm still a hands-on artist, and I use machine learning and AI tools to speed up concept, prep and post.

I've delivered for Disney, Amazon MGM, Netflix, Warner Bros., Universal, Sky, HBO and the BBC, with extensive on-set experience across the UK, Europe and the US.
